EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claim 18, line 2, the word –the- is replaced with “a”.
- Claim 42, line 2, the word –the- is replaced with “a”.

The following is an examiner's statement of reasons for allowance: The applicant amended the claim language of the independent claims to read that the opening within the wall has an axis substantially normal there through. The applicant also thoroughly explained the difference between the prior art's orientation element and the orientation element of the instant application. The instant application has an orientation element in which only one orientation allows for a secure resting and locked position; whereas the prior art has basically a shoulder allowing the securement to be loose and in any position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
